Claims 14-27 (Specifically Claims 14, 15, 23, 20, 21) are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 14 there is no antecedent basis for "pipe clamp". In claim 15 it is not clear whether the webs recited are the same webs as in the previous claim 27 or if they are a second set of webs. In claim 23 there is no antecedent basis for "pivot pin". In claims 20 and 21 there is no antecedent basis for "set-up side parts".

The claims are replete with inconsistent language. It is not clear in all instances whether a previously recited element or a new element is being claimed.

Applicant is required to carefully review the claims to ensure consistent terminology.

Also, applicant should remove negative limitations such as "in the absence of exterior support" and limit the claims to positive recitations.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and is cited on the attached PTO 892.
